

The Music for Hope

The Music for Hope Project of the Earth Caravan started with the financial support (1000€) for the purchase of traditional instruments for the Conservatory in Nablus. Also the refugee camps in Nablus and Dheisheh Music for Hope will support with Music Instruments.

Music for Hope is a project with the aim to give children and adolescents in areas of poverty and war, who have no access to music, the opportunity to learn a musical instrument.

We collect musical instruments and money for new instruments for schools, NGOs, refugee camps and we help to find music teachers who teach the children.

We support music projects in which the children can show and develop their abilities.

How you can help is:

1. By donating musical instruments, guitars, flutes, drums, keyboards etc.
2. By financial donations to buy the instruments locally
3. If you are a musician and/or music teacher and would like to run a music workshop for children and adolescents

All Donations go without deduction to the projects.
